November 30, 2016, Anne and
Kathryn were students together

I worked with Kathryn for about a year. Over the past couple months I transitioned into a headquarters based role. Kathryn went above and beyond to make the transition smooth, and allow me to focus on my responsibilities. She was always one step ahead of me and on top of every detail.

I have been in the pharmaceutical and device industry for 14 years, including three startup companies. During my tenure, I have learned that the culture of the organization is one of the key aspects of company success. Kathryn is somebody that through a positive attitude, thoughtfulness, and attention to detail helps create a productive corporate culture. She has a contagious positive attitude and would be a great addition to any team.
